On Thursday 3rd March, our Year 7 students and their families were given the opportunity to attend the annual 'Welcome to Year 7' BBQ. The event was held in the beautiful surrounds of the Aboriginal gardens and not only included a tasty BBQ, which was cooked and served by our wonderful SRC students, but also included a friendly game of cricket on the hockey oval. The afternoon event was attended by a large number of Year 7 teachers, parents and carers and SRC students.

The Year 7 students and their families were offered a delicious piece of chocolate mud cake in their honour. The cake was beautifully decorated in Canobolas colours and was proudly cut by one of our Year 7 students, Rebekah Ryder. The 'Welcome to Year 7' BBQ allows students the opportunity to introduce their family members to both teachers and other parents in a relaxed and fun environment.

Mrs Nash, the Year 7 Year Adviser, was extremely pleased with the number of Year 7 students who attended the BBQ with their families. The 'Welcome to Year 7' BBQ was a wonderful success and we look forward to welcoming parents and carers of Year 7 into our school for other events in the near future.
Dear Parents and Members of our School Community

Welcome to Week 6. Next week we will formally welcome our Japanese exchange students and their teachers to our school. Fifteen students and two staff will travel from Toyo Ushiku school in Japan to our school as part of the annual sister school exchange program between both of our schools. Our guests will be visiting a number of classes and participating in activities such as Ceramics, Cooking, Art and Music. I would like to thank our families who have volunteered to host our guests for their two week stay. I am sure our guests will have the time of their lives and I am looking forward to spending some time with them next week.

**Academically Talented Program**

Over the coming weeks, families of students in local primary schools will receive application forms for our Academically Talented classes for 2017. This is an exciting opportunity for our academically talented students and we are committed to ensuring that we continue to offer programs for all of our students to develop and grow them academically, socially, culturally and emotionally. Information is available on our school website.

**Year 11 Parent Teacher Information Evening**

On Thursday 3rd March we held a parent information evening for current Year 11 students. Our students were introduced to the requirements of their preliminary certificate. Thank you to those parents and students who attended for your feedback and support.

**Welcome to Year 7 BBQ**

Thank you to the parents, students, staff and family members who attended the Year 7 welcome BBQ on Thursday evening. Supporting the transition to high school is key for our team and I encourage you to continue the open lines of communication between yourself and our school if you need anything at all.

For the next five weeks I will be out of the school working in a different role within the Department of Education. During this time, Ms Kate Wootten and Mr Stuart Riles will be relieving as Principal. Please feel free to contact them on 6362 1677 if you have any questions or queries.

I hope you have a great fortnight and I look forward to speaking with you all in Term 2.

With my warmest regards

Chad Bliss
Principal
BIG PICTURE LAUNCH

OH, what a night!

A very successful night was had by all who attended the Big Picture launch on Wednesday 18th Feb in the Health Building at Canobolas High. Students, teachers, parents and carers were blown away by the support from the community in regards to their interest in the new Big Picture Education program and its philosophy on re-engaging students via their passions and interests in their education.

On arrival attendees were welcomed at the school gates by Big Picture students who politely directed them to the Health building where Kyle Fardell provided some background music, setting up a wonderful relaxed atmosphere for others to chat to potential mentors in their prospective interest areas.

Thank you to our Principal, Mr Bliss for a very reflective welcome and to Erin Dalzell for the acknowledgement of country. Viv White, the CEO of Big Picture was once again a special guest as her knowledge and experience was invaluable towards outlining the expectations of the whole Learning through Internship (LTI) process and the requirements of the mentor program.

After a couple of insightful speeches from Advisory mentors Mrs Rose and Miss Penberthy, and some VERY inspirational speeches from Destinee, Emily P and Jack about their Big Picture journey so far, students offered a selection of sweet treats, savoury quiches and light refreshments to the attendees who then engaged in conversation with the staff, students, parents and carers and members of the community about the Big Picture program.

Destinee had a very informative chat to JJ from PhysX and is currently setting up an Informational Interview; Emily W had a very enthusiastic chat with Karen from Courallie Child Care centre and is now keen to embark on a Shadow day this Friday; many students spoke with Ben Morris from Future moves at CSU and are keen to go on a ‘My day, My way’ excursion to Bathurst for the whole University experience; Emily P had an awesome interview with Sonya, the nurse facilitator at the Orange Base Hospital this week and is now anxiously waiting clarification for her Shadow day; Jack finally met his potential mentor from Precision Metal Fabrications at the launch and is looking forward to a Shadow day this term; Dyson met with Tristan from SNAP fitness; Amelia and Erin have already set up an Informational Interview with Belinda Bostock, the School Police Liaison Officer and are very excited about what she has planned for them; Blake has a keen interest in Sign writing and thanks to Ms Wootten and her contacts, has been able to set up an interview with Pete Golland and help with projects around the school, currently STEM centre signage.

Overall many contacts were made within the community with potential mentors and a big thank you goes (once again) to all parents/guardians and carers of the students enrolled in the Big Picture Education program. We look forward to sharing many more exciting journeys with you all in the future.

A very special thank you to Mike and Geraldine from the Sally Foundation for their invaluable support and to Vince for his tireless efforts in regards to our media exposure and contacts.
ENERGY IN A BISCUIT

Year 8 was investigating the energy content of food and modelling the way our bodies ‘burn’ kilojoules. The heat energy released was used to heat up water in a test tube in a similar way to how our body uses our energy to warm our blood.

New chicks on the block…

Year 12 Biology has hatched some jumbo quail. It was only 18 days ago that the class named the eggs and gently placed them inside the incubator. There were proud parents all around as they were reunited. Meanwhile we have studied inheritance, genetics and cell division, mitosis and meiosis.
FOSSILS AND EVOLUTION

Year 10 have been looking at how fossils are made, and getting up very close & personal in the process.

AGRICULTURE NEWS

Year 7 Students in the Aria and Quay class have all been issued with their Term 1 assessment task – Design a Chicken Coop. Although the assessment is not due until end of Week 8. Three students have already completed their assessment and have bought in their designs.

Justice Underhill of 7 Aria handed her fabulous chicken coop model in last week all constructed of recycled materials. Joshua Whiley also of 7 Aria has handed in his assessment early. Joshua has constructed his from ply wood and chicken wire that he had at home.

While another student of 7 Quay was the first in his class to hand in his marvelous chicken coop model also constructed from recycled materials.

All three students have put a lot of thought and consideration into placement of feeders, water, nesting boxes and protection from predators. I look forward to seeing more chicken coop models rolling in over the next few weeks.

Miss Tate
Agriculture
Year 8 STEM – Biodomes

8STEM classes have been learning about the use of biodomes to grow food for eating in places where that particular food may not normally grow. Students used the makerspace to prototype a self-watering plant starter from used PET water bottles normally headed for the bin. It uses a wick to draw water from its reservoir and keep the seed raising mixture damp enough for the seeds to grow. This process will help us understand how plants can grow in a biodome. The first seeds broke through in two days!

Students also used computer aided design (CAD) and computer aided manufacturing (CAM) to label their prototypes with name stickers.

Mr Scott
Head Teacher STEM
On display in the STEM are some books that received a Prime Minister’s Literary award. Come and check them out.

**Made in Orange The Life and Times of an Extraordinary Factory** is also on display. This is the story of a manufacturing plant that began as an armaments factory during World War II. It then made household appliances for a rapidly expanding nation. Over eight decades the factory continually confronted and rebuffed economic changes before succumbing to the progress of globalisation. This year marks the decommissioning of the Electrolux factory and this book showcases its amazing history and provides a snapshot into Orange’s manufacturing industry. Many students from our school would more than likely have generations of family members who worked at this factory. So come and have a browse through this book, you never know you might see a familiar face!

**EBOOK CATALOGUE**

We have recently purchased titles for our new ebook catalogue. Year 7 classes will be informed about our new ebook platform over the next few weeks. If you would like to know more, see Mrs Richard in the STEM centre.
In the Creative and Performing Arts classrooms young artists and musicians are hard at work drawing, designing and rehearsing. Here is a snapshot of some of the activities going on. Following on from the award winning artworks at the Australia Day Art Competition, we are busy preparing works for the Orange Show in April this year.

Jade Hassan with her altered chair for Yr 12 Visual Design.

Yr 7 mural between B and C Block.

Ristin Jones’ award winning portrait of Banjo Paterson.

Brendan Dittmar Yr 10 Visual Design with his tie-dyed tee shirt.

Yr 7 Art students at work.

Yr 8 musicians rehearsing.

VocE choir rehearsing with Sam from the Orange Regional Conservatorium.
Congratulations to all the students who are continuing to display a high level of effort in practical lessons despite the recent high temperatures. The PDHPE teachers make every effort to maximise the students time in the shade and participate in activities that are suitable for the hotter weather. Many of our teachers spend most of the day in the heat working with our students and supporting them during difficult conditions.

It is an expectation that all students participate in practical lessons and follow all instructions given by their teacher. Medical reasons for exclusion from a sport or PDHPE lesson are only possible with a medical certificate signed by a doctor accompanied by a letter from the parent.

A reminder that it is a good idea to bring along a hat and ensure that your child has a drink bottle to use each day.

If PDHPE teachers were corn cobs!!!

At CRTHS we get our notes and money for excursions and activities in on time to make it easier for our coaches and office staff!
**Georgia Kiel Representing Western Girls Softball**

Congratulations to Georgia Kiel who has been in Cronulla this past week competing at the NSW CHS Softball Championships as part of the Western Girls team. We look forward to hearing some more results when she returns to school next week!

---

**Golf**

Western Region Golf
Monday 14th March. Notes and money now overdue at the office.

---

**Erin Naden Selected in Squad for NSW Hornets Touch Trials**

Congratulations to Erin Naden being named in the NSW Under 16’s Hornets Touch squad. Erin is constantly working hard at training and at her studies. Erin will attend final trials this weekend when the NSW team will be selected. Good luck Erin!!
Canobolas Swimmers do us proud at Western Swimming

Congratulations to Luke Wilde, Heidi Bell, Courtney-Rose Munday and Dyson Percival who competed at the Western swimming trials in Dubbo on Thursday. Based on the results of the day these guys swam hard, improving on their qualifying times from our school carnival. Well done guys. Thank you to the parents who took the swimmers over to Dubbo for the day. Parental support is always welcome at any sport.
Canobolas High School
Athletics Carnival

When:  **Friday, April 8th (Week 11), 2016**

Where:  **School grounds**

Dress up in your house colours and get as many participation points as you can to win
ATHLETICS CARNIVAL 8th April

On Thursday April 8 Canobolas will host our annual Athletics Carnival. Nominations will be taken up until the middle of week 10 for events, but students are able to enter on the day if they find they wish to compete in extra events. Students who would like a program of their events can collect one on the day. If your son/daughter wishes to pre-enter, an entry form is attached below and can be returned to PDHPE ASAP. A program for the day is also below.

---

Canobolas Athletics Carnival 2016

Event Nomination Form

## Please Tick or Circle the events you wish to enter.

Track Events

- □ 100m
- □ 200m
- □ 400m
- □ 800m

Field Events

- □ Long Jump
- □ Shot Put
- □ Discus
- □ High Jump
- □ Javelin

Relays will be organised on the day with the fastest 100m runners in each age group required to run for their house. Sports house captains leading their teams into the carnival are:-

**PDHPE Assessment Reminders**

Many of the PDHPE classes across the years are currently working on assessable items both in class and at home. I remind you that if your child does not complete an assessment task and hand it on time for marking it will affect the overall grade they are awarded for PDHPE. This grade also has a practical effort, attitude and participation mark for lessons where students participate in practical games, sports and various physical activities. Please note that this component of the course is compulsory and students may only be excused from these classes with a medical note during the time of injury recovery.

Girri Girri News

The Girri Girri girls group were fortunate enough to be able to participate in an aboriginal art workshop, that was lead by Hayden Gibbs. The workshop allowed the girls to not only learn about particular painting techniques, but also about traditional symbols and the stories that accompany paintings. Over the next two weeks the students will be painting their own artworks, which will be displayed around the school.

Rep Shorts and Socks!!!

School sport representative shorts $40 and socks $10 are available for purchase for through the school office and PDHPE. Payments can also be made online.

Mark Skein
Head Teacher PDHPE
The Canobolas Rural Technology High School will showcase two of its outstanding initiatives at this conference. These include our STEM and CHPA programs of which we are so very proud.

Conference synopsis: To address the changing educational needs of students and increase engagement, The Canobolas Rural Technology High School, has two innovative projects to share.

- **Project 1 – Canobolas High Performance Athletes (CHPA) program.** CHPA students are supported by industry professionals and a school based management team. Local industry representatives work with students in the area of Strength and Conditioning, Exercise and Sport Science, Physiotherapy, Pilates, Nutrition, Sports Psychology, Media Skills and Sports Coaching. Students learn: specific time management and organisational skills; participate in ongoing individual strength, speed, flexibility, power and aerobic endurance programs; access state of the art exercise testing and training equipment in a university exercise physiology laboratory setting; further develop technical and tactical skills within their chosen sport; and experience elite sporting environments and events

- **Project 2 – STEM centre and Stage 4 STEM curriculum.** Following recent STEM trials in the school, The Canobolas Rural Technology High School is embedding an integrated project based STEM curriculum for all students in Stage 4 and establishing a STEM Centre. The STEM Centre encourages Students Thinking Exploring and Making and has two unique learning areas – the Thinkerspace and Makerspace – for lesson delivery. The units of learning feature technology maker projects as the vehicle for Scientific and Mathematical thinking. STEM extends the learning of their most talented students while at the same time reengaging those who ask, “Why do I even need to learn this anyway?” The units are designed to mesh with the Science Scope and Sequence to enhance learning.
The Tell Them From Me student feedback survey

I am delighted that this term, our school, like many others in the state, will participate in a Department of Education initiative: the Tell Them From Me student feedback survey. The survey aims to help improve student learning outcomes and measures factors that are known to affect academic achievement and other student outcomes. The focus of the NSW-wide survey is on student wellbeing, engagement and effective teaching practices.

The survey is a great opportunity for our students to provide our school with valuable and quick feedback on what they think about school life, how engaged they are with school and the different ways that teachers interact with them. Schools in Australia and around the world have used the Tell Them From Me survey to help improve how they do things at school.

I want to assure you that the survey is confidential and school staff will not be able to identify individual students from their responses. The survey is conducted online and will typically take less than 30 minutes to complete. It will be administered during school hours between 14 March and 8 April. Participating in the survey is entirely voluntary.

A consent form and a list of frequently asked questions (FAQs) for parents/carers about the survey is being sent home with students over the next week. If you do not want your child or children to participate, please return the consent form to school by Monday 14th March. The FAQs and copies of the consent form, including translated consent forms, are available from the website above.

Ms J Bertolin
Deputy Principal – Teacher Quality

IMPORTANT — UPDATED STUDENT MEDICAL INFORMATION REQUIRED

A reminder to parents to notify the school about your child’s health

We welcome information from parents about your child’s health, even if you are not requesting specific support from our school. Our school asks for medical information when you enrol your child. It is also important that you let us know if your child’s health care needs change or if a new health condition develops.

Information about allergies, medical conditions such as asthma and diabetes and other health care related issues (including prior conditions such as medical procedures in the last 12 months) should be provided to the school by parents. Please provide this information in writing to the principal and if relevant please provide updated health care plans (eg. Emergency Response Plan, ASCIA Action Plan for Anaphylaxis, Asthma Action Plan or Individual Health Care Plan). This will greatly assist our school in planning to support your child’s health and wellbeing.

Please also remember to notify staff in the school office of any changes to your contact details or to the contact details of other people nominated as emergency contacts.

We appreciate your assistance in this regard and assure you that any information you provide the school will be stored securely and will only be used or disclosed in order to support your son or daughter’s health needs or as otherwise required by law.
SCHOOL NOTICES

UNIFORM
If you have any uniform items at home that no longer fit your child, please consider donating them to the school. Please drop them off at the Front office. Also please remember to clearly label all items of your child’s school uniform.

ATTENDANCE AT SCHOOL
You may be aware that from January 2010 the NSW Government legislated an increase in the school leaving age for students from 15 years to 17 years. This means that if your child is not 17 and is not in full time work or other tertiary study, they MUST attend school. Our school will be working closely with Mr Lyndon Marriott (Careers Adviser) and our Deputy Principals to ensure that we are able to cater for the needs of all students.

The Government and the Department of Education and Communities have also recently reviewed a number of child protection initiatives. Attendance at school was one of these. If your child is absent for any reason, it is essential that you contact the school and provide notification of the child’s absence in writing on the first day your child returns. Our school will take very seriously unexplained absences. If students are genuinely ill or have some other genuine reason for not being able to attend school, then the school will support you at all times. However, it is the parents/caregivers responsibility to ensure that their children attend school everyday.

ARE YOU READY TO XCEL?
Don’t miss out on your chance to achieve your full potential this year with the help of PHYZ X! If you are a consistent “high achiever” looking for some help to take you to the next level in academic, sporting, performing arts or music, an XCEL Scholarship is for you! Ten (10) outstanding year 11 students across our region will be given the chance to XCEL to the next level with SUBSIDISED and FREE access to some of the best health and exercise related services in the Central West! Achieve your full potential with access to FREE Gold Xtras Membership (40% discount on PHYZ X services) and a host of other benefits including injury risk assessment, fitness programming, exercise classes, mentorship and more. Valued at over $2500.

If you are keen to XCEL, show us and apply via a short video recording answering some simple questions. Check out the XCEL Scholarship brochure (available from your Year 11 coordinator, by contacting ask@phyzx.com.au, or by grabbing a copy from PHYZ X Orange, inside Orange Central Fitness, Orange Arcade) for all details, questions and selection criteria.

Remember get creative (and be memorable!) with your video submission. NEW Submission closing date: 31st March 2016.
