Why choose us to educate your child?

We see your child as an individual with their own set of talents and abilities.

Detailed current programs and lessons cater for all students across the range of interest and capabilities.

Our staff use 21st Century technologies in their lessons to engage and interest your child throughout their time in our faculty’s classes.

Excursions
Integrated ICT
Problem solving
Connectedness
Enrichment tasks
Collaborative learning
Self-paced learning
Quality feedback at all stages of the learning process
Support as required, to maximise engagement and skill development.

We also cater for extra-curricular involvement, such as the Duke of Edinburgh Challenge.

Many subjects, many choices.
Years 7-12
What we offer:

We offer a wide range of subjects from years 7 to 12, supporting students of all abilities through to Gifted and Talented (AcTal) classes.

Mandatory subjects run from years 7 to 10 with all students taking Geography and History, dealing with current and past events, societies and individuals.

For some of our students, elective classes are popular to the end of year 10 with subjects such as Dirty Rotten History, Elective History, and Aboriginal Studies giving students with talent and interest a chance to be more individual in their learning. Students are fully supported throughout their learning process to develop their skills and understanding before they reach senior school.

In Senior school, the HSIE faculty offers: Ancient History, Modern History, History Extension, Geography, Business Studies, Legal Studies, Aboriginal Studies, Retail, Society and Culture, Work Studies.

How we teach:

Students in our classes are able to work individually, in small groups, teams, and as whole classes to cater for their skill development and personal preferences.

We aim to expose students to a variety of real-world learning experiences with meaning for them. This will prepare them for the rapidly changing world in which they will live and work.

Respectful relationships are an integral part of this, along with a sense of fun.

Our staff are professional and have a highly developed awareness of the needs of students in their classes.

All teachers have a flexible and extensive repertoire of skills to allow your child to have the best learning experience possible.
